Pricing is subject to change due to various taxes, tariffs or duties which may be applicable on certain products. BRP reserves the right to change the prices without incurring any obligations.

For advertising purposes, some scenes depicted in this catalog include professional riders and operators executing maneuvers under ideal and/or controlled conditions. Do not attempt any of these or any other risky maneuvers if they're beyond your level of riding ability as well as your understanding and respect for the performance of your Sea-Doo watercraft. RIDE SMART FROM THE START. Always ride responsibly and safely. Follow all instructional and safety materials. The warranty is subject to the exclusions, limitations of liabilities and all other terms and conditions of BRP's standard limited warranty. BRP recommends a minimum operator age of 16 years for riding a watercraft. Always wear appropriate protective clothing for your type of boating use, including a Coast Guard approved life jacket. Always remember that riding and alcohol/drugs don't mix. Operate your watercraft keeping a safe distance between yourself and others. Always observe applicable local laws and regulations. Because of its ongoing commitment to product quality and innovation, Bombardier Recreational Products Inc. (BRP) reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring any obligations. Some models depicted herein may include optional equipment. Prices are based on Manufacturer Suggested Retail Prices. Dealers may sell for a different price. For Canada and US, taxes are not included. Sizing Chart

HOW TO MEASURE

For best results, have someone else take measurements. Measure body in swimsuit or undergarments. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

Chest
Measure under your arms, around the fullest part of your chest.

Waist
Measure around your waist at the narrowest place.

Hips
Stand with legs together, measure around the widest part of your hips, ensuring the tape is level.

Arm Length
Let your arms hang down at your sides in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.

Inseam
Without shoes, from crotch to the floor.

PFD Size Guide

Size recommendation:

Your PFD should fit snug around your body while providing comfort.
Your chest width is the key driver to define your PFD size. Measure the circumference of your chest at its widest point. Use our size chart to determine which size is closest to your measurement. If you fall in between two sizes we recommend you choose the smaller one. For safety purposes, a properly sized PFD should fit like a glove, stay in place but allow you to move freely.

How to fit:

Whentryingon a PFD, loosen all straps, put it on and zip or buckle it up. Afterwards adjust all straps. PFDs have adjustable features to tighten it further around your chest and belly if needed.

2 Way Sit In Tube – 3-Per.

B107100000 (US) One size

The Sea-Doo Three-Person Two-Way Sit-in Tube has all the same attributes as its two-person counterpart, plus room for one more passenger. A cockpit-style tube ideal for more timid riders who just want a stable, relaxing ride. A chafe-free neoprene seating area that is comfortable and dry, while the tube's low center of gravity makes it less susceptible to wakes and waves tipping it over. Also, thanks to its dual tow points, it offers two different styles of riding: pulled from the front for a comfortable ride while seated against the backrest, or towed backwards for a more thrilling chariot-style ride while sitting on your knees. And whichever way you ride, the soft foam handles equipped with knuckle guards provide a welcome added touch. All Sea-Doo tubes are made with heavy-duty nylon covers and robust PVC air chambers, and outfitted with quick-connect tow hooks.

- Sea-Doo Three-Person Two-Way Sit-in Tube.
- Designed for three riders.
- Multiple sit-in riding positions, sitting with their back against the backrest or on their knees.
- Can be pulled from the front or the rear depending of the choice of your riding position.
- 26-gauge robust PVC bladder with 840/420-denier heavy-duty full nylon cover.
- 4 self-bailing drain vents Includes soft foam area for sitting and foam knuckle-protection pads to avoid chafing.
- Tow system reinforced with 840-denier nylon.
- Quick-connect tow hook.
- Padded valve cover.
- Puncture repair kit.
- 2 Boston valves and one normal air valve in floor.
